Summary

Postgraduate student who has years of IT experience with exceptional skills in Analysis, Object Oriented Design, Development and Implementation and Testing of Web Applications. Competent in utilising of Open Source application to generate substantial savings.

Transferable Skills:

- Strong communication skills,
- Technically proficient and highly adaptable,
- A team player
- Agile problem solving,
- Enthusiastic and eager to learn,
- Reliable and trustworthy team member with creative ideas,
- Pay a lot of attention to task detail and guarantee high quality

Career Objective

Learning new programming languages and technologies is what I am passionate about. I'm open for an opportunity to further explore my career as a software engineer.

Employment History

August 2017 - Present

**MCA - System Administrator
Queensland Australia**

- Deploys and Configures Infrastructure Solutions.
- NAS implementation.
- Proactively identify issues and take corrective actions as required to avoid system outages.
- Configure and management of quota/access policies.
- Monitoring and reporting of deployed infrastructure.
- Installation/ Upgrades of storage hardware/software/firmware

June 2017 - July 2017

**M-Tax Accountant - Web Developer
Queensland Australia**

Website developer, Intranet site development - Update and mitigate old website to Wordpress. Devised and Implement and Intranet site displaying various type of important data in an effortless end user interface

- Actively participated in requirements gathering, analysis, design and testing phases.
- Implements Intranet site with Node.js, Express, MongoDB and React
- Perform the responsibilities of implementing and hosting of systems on a web server.

- Build custom Wordpress plugin.
- Prepare documentation and user's manual for the application.

Education

Master of Information Technology

Queensland University of Technology

Feb 2016 - June 2017

Brisbane Queensland Australia

Bachelor of Informatics

Griffith University

Feb 2013 - Nov 2015

Brisbane Queensland Australia

Bachelor of Computing and Information Sciences

Ho Chi Minh City University of Science

2009 - 2011

Ho Chi Minh City Viet Nam

Degree Related Projects

Java Compiler - Queensland University of Technology (Feb 2017 - June 2017)

• **Purpose:** This project was completed for the IFN660 Programming Language Theory subject, as part of QUT's Master of Information Technology program. • **Development Stack:** gplex, ggpg, C#.

• **Description:** The program was developed to read program text and divide into tokens. The list of tokens then arranged in a tree-structure (called the syntax tree) that reflects the structure of the program. We then did type checking to determine if the program violates certain consistency requirements. Lastly the Java program was translated to a .NET Intermediate language. With the ability to learn fast I be able to translate all the theories into practical code for our team and also mentor other members with weak technical skills. As a result, we have received a distinction our project

Technical Skills

Programming Languages:

- Python
- C/C++, C#, Objective C / Swift, PHP
- JavaScript, jQuery, HTML5, CSS3, SASS
- JSON, AJAX

Database

- SQL Server
- MongoDB
- PostgreSQL

Frameworks/ Platform:

- ReactJS, Redux, Angular JS 2/5
- Node.js, Express
- ASP.NET MVC, ASP.NET Core, Entity Framework
- Webpack, ES6
- RESTful
- Wordpress, Genesis Framework
- Xamarin Form
- Unity3D
- Docker

Administration

- Unix/Linux server
- Window Server 2012/2016
- Amazon AWS/ Azure

Soft Skills

- Highly developed communication skills in both written and oral form.
- Technically proficient and highly adaptable,
- Agile problem solving,
- Enthusiastic and eager to learn,
- Reliable and trustworthy team member with creative ideas,
- Pay a lot of attention to task detail and guarantee high quality.

Languages

Vietnamese – Native

English - Fluent

Professional Memberships

Australian Computer Society(ACS) - November 2017 - Present

Volunteer Work

Website Developer – Brisbane Artificial Intelligent Community (September 2017 - January 2018)

Working as Website Developer/ Website Administrator for Brisbane Artificial Intelligent Community
